

# The NEW EDC Condensate Pumps

## The Stealth Series

The Electronic Energy Control System reins in energy at the minimum required power for the amount of detected condensate.

As the world becomes increasingly energy conscious, EDC continues to make energy efficiency a priority. Advances like EECS technology result in proven, measurable benefits for installers and end users. These benefits include, reduced power usage, lower energy costs, and greener condensate pump operation.

The EECS technology results in amazingly quiet and efficient operation.
